Projects

ABD Driving School Website

(August 2020)

Utilized: HTML5, CSS, Vanilla JavaScript, jQuery, Figma

- Designed and developed a professional, responsive and user-friendly website for the company from scratch.
- Used SEO best practices to optimize their online presence.

Ping Pong Game

(July 2020)

Utilized: Java

- Developed a Java GUI application which simulates controlling the ball being kicked (navigated) around the pitch using left, right, up and down buttons/keys
- Debug code to allow functions such the scoreboard, player options and menu to work correctly.

Personal Portfolio(https://ifrahv.github.io/portfolio_2020/)

(February 2020)

Utilized: HTML5, CSS, Vanilla JavaScript, Figma

- Designed and developed a website that contains all the projects that I create.
- Includes interactive elements, mobile-friendliness, working contact form.
- Uploaded on GitHub which allowed be to become more comfortable with git.

Work Experience

Peel Juice Bar

Milton Keynes, MK

TEAM MEMBER, PART-TIME

Nov. 2018 – Mar. 2020

- Worked in a small team to provide excellent customer service to customers. Conversating with regulars and creating rapport with new customers.
- Use flexibility and analytical skills to preparing and stocking coffee, smoothie and food in the most efficient way to prevent long queues and low customer satisfaction.
- Recommending new drinks and promotion work through sampling and handing out leaflets.

Top Jump Trampoline Bar

Milton Keynes, MK

TEAM LEADER, CAFÉ DEPARTMENT

Jun. 2016 – Oct. 2018

- Led a team to meet the goals and standards of the company.
- Using my communication skills and adaptably I had to deal with issues brought up by customers and the team in the fast-passed environment.
- Cash handling with accuracy and maintaining department cleanliness by following regulations and laws set.
